

Trade Unionist and Socialist Coalition

The Tories have left working-class people suffering during Covid, while UK billionaires increased their wealth by a third!

Liverpool can't take any more. The Labour council has willingly passed on the government's savage austerity - £420 million cuts, 3,600 jobs lost, and another

£15 million cuts and a council tax hike this year!

Liverpool needs a socialist mayor to stand up for local people, and use the position to help build a mass campaign against austerity, greedy landlords, privatisation and closures.

"I am a member of the Socialist Party (formerly Militant) which helped lead Liverpool's socialist council in the 1980s. That council led a mass movement against Thatcher's Tory government - successfully winning £60 million back, building 5,000 council houses, five sports centres, and three parks, creating thousands of well-paid council apprenticeships and jobs with rents frozen for five years... We need a fight like that now.

"I spent over 40 years working in local government, and was active in my trade union UNISON, as a branch secretary and member of its national executive council. Day in day out, I helped organise working people to defend and improve their jobs, pay and conditions.

"In the 1980s, Militant-supporting Labour MP Terry Fields took only a worker's wage. We were both expelled from Labour for being socialists. If elected, I will take only the salary which I earned as a council worker."

Public election meeting
Wednesday 5 May, 7pm
Zoom ID: 890 4093 6169

Roger Bannister - a workers' mayor on a worker's wage

LIVERPOOL DOES NOT NEED UNELECTED COMMISSIONERS

We need change, and proper socialists implementing socialist policies!

No cuts - Keep the One Stop Shops open!

I oppose the closure of any full-time One Stop Shops, and their replacement with part-time establishments, which will hurt those most in need. I am proud to be part of the weekly protests to keep them open.

- **Reverse cuts and demand funding is restored**
- **Reject council tax and rent increases**
- **Build tens of thousands of high quality council homes on brown field sites. Save Oglet Shore!**
- **Restore domestic abuse services and street lighting**

TUSC
AGAINST
CUTS

IF ELECTED I WILL CAMPAIGN FOR:

- A fully funded NHS and a 15% pay rise for staff
- Free education and training for young people
- *These measures will create thousands of well-paid socially useful jobs*
- An immediate £12 an hour minimum wage as a step towards £15
- No loss of pay from Covid restrictions. We need workers' control of workplace safety
- Take the wealth off the 1% - we need socialist change!
