

The cost-of-living crisis has hit the people of Leicester. Incomes have gone down in real terms, while profits of the big companies and wealth of the super-rich has rocketed.

Over years government cuts have devastated council services, but the council has meekly passed them on. At the same time Council Tax, council rents and charges (like the District Heating Scheme) are being ratcheted up.

## BUT WE CANNOT KEEP ACCEPTING THESE CUTS.

**STEVE SAYS:** "I would refuse to implement any government cuts in Leicester by proposing a no-cuts budget."

"The council has more than £200 million in the bank that could be used, along with borrowing powers, to maintain services. This would allow time to build a city-wide campaign against cuts to force the much-needed money from the government."

"People power saved the Glenfield heart centre. Similarly, a massive campaign led by a socialist Mayor, backed by socialist councillors, could save our services."

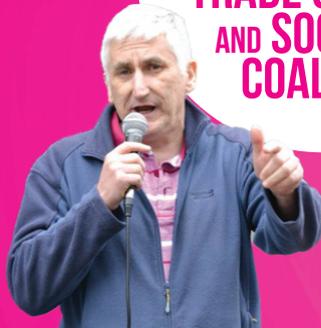

"The city mayoral system centralises too much power into the hands of one person. I would campaign for the abolition of the mayoral system by the end of my term of office. I would also only take the average wage of a Leicester worker instead of the current £77,000 allowance."

  - **For a decent future for young people - free education and training, and decent and well-paid jobs. Free school meals for all**
